### **The BWF Round Robin Ranking System will be used to determine the places in each box in each round as follows:**

- *Ranking will be established by the number of matches won*
- *If two players/pairs have won the same number of matches, the winner of the match between them will be ranked higher*

If this leaves two players/pairs equal, ranking will be decided by the result of the match between them.*
- *If three or more players/pairs have won the same number of matches and are equal in the difference between total games won and total games lost, ranking will be established by the difference between total points won and total points lost, with greater difference ranked higher.
